

Base map information, including hydrographic data compiled by the Hydrographic Service (HGS), is published and updated by the HGS Hydrographic Service. Hydrographic data are derived from the U.S. Coast and Geodetic Survey (USCGS) hydrographic survey data and other available hydrographic information. The HGS Hydrographic Service is responsible for the accuracy and reliability of the data. Bathymetric contours are shown in the color scale to the right of the map. The map has been compiled in cooperation with the Department of the Interior, National Oceanic and Atmospheric Administration (NOAA).
 Hydrographic data were collected and compiled by the Hydrographic Service (HGS) and are the property of the U.S. Coast and Geodetic Survey (USCGS). The HGS Hydrographic Service is responsible for the accuracy and reliability of the data. Bathymetric contours are shown in the color scale to the right of the map.
