

Most map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic survey supplemented by hydrographic information from the U.S. Coast and Geodetic Survey (CGS) hydrographic survey. Data compiled with International Hydrographic Organization (IHO) Hydrographic Survey Standards as these apply to the side of the survey. Refer to notes on the side of the chart for specific data information.

This information is not intended for navigational purposes.

The map has been compiled in accordance with the Department of Defense's Military Management Service and the U.S. Geological Survey.

Where appropriate, names also printed or not, submitted to the Marine Management Service. All names shall comply with IHO's Code of Practice for the Marine Management Service. For more information on this map, refer to the IHO's Code of Practice for the Marine Management Service.
