

Base map information regarding bathymetry was compiled by the Research Ocean Service (ROS), Bathymetry, unnumbered, Year 1985. Hydrographic survey data (see index) which comply with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards for their use on the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid Zone 18, 1800E Meter Ticks (1:100,000) make the metric.

Oblique projection (see index) control is not controlled by the National Oceanic and Atmospheric Administration (NOAA). The accuracy of this map is not intended for navigational purposes. For such purposes refer to the NOAA Chart Publication Diagram available from the National Oceanic and Atmospheric Administration.
