

Use most information missing bathymetry was compiled for the Standard Ocean Service (SOS). Bathymetry was compiled from ADCS multibeam survey data (see index sheet(s) and International Hydrographic Organization (IHO) Special Publication 84 for more details) or from other data to the date of the survey. An IHO flag is included through Hydrographic Survey (HS) symbols for hazard and navigation and information. The product is not intended for navigation purposes. For navigation safety, users must use related charts.
Original projection survey data, printed in red, compiled by the Marine Management Service (MMS) are indicated by the MMS Data Conversion Staff (DCS) and Projection Diagram. The projection on this map is not for Federal Listing purposes. For full details refer to the DCS Official Projection Diagram available from the Marine Management Service.
Universal Transverse Mercator Projection and Grid Zone ID: 18QD (see note 1) (see note 2) under the heading.
North American Datum (NAD 83)
