

BATHYMETRIC MAP

Base map information including bathymetry was compiled by the U.S. Naval Oceanographic Office. Bathymetry was compiled from National Ocean Service and NAVOCEANO hydrographic survey data (see notes) which comply with International Hydrographic Organization (IHO) Special Publication 44 requirements, except as those noted at the date of the survey. This information is not intended for navigational purposes.  
 Universal Transverse Mercator Grid, Zone 16, 10,000 Meter Ticks (1:1) are shown inside the mapline.  
 Offshore protection survey data, printed in red, compiled by the Minerals Management Service. Heavy line indicates limits of AMIS Outer Continental Shelf Offshore Protection Program. The protection on this map are not for Federal casing purposes, for such purposes refer to the OCS Offshore Protection Diagram available from the Minerals Management Service.
