

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic survey supplemented by hydrographic information from other sources (see index). NOS hydrographic survey data comply with International Hydrographic Organization (IHO) Publication No. 1000 standards in those areas of the date of the survey. This information is not intended for navigational purposes. (Source) Electronic Receiver Data (June 11, 1980) meter (M) (-) are shown inside the profiles.

ONMap projection survey data, printed on a 1:250,000 scale, is shown inside the profiles. (Source) Bathymetric survey data, printed on a 1:250,000 scale, is shown inside the profiles. The profiles on this map are not for Federal survey purposes; for such purposes refer to the NOS Official Projection Diagrams available from the National Ocean Service.
