

Base map information including bathymetry was compiled by the National Ocean Survey (NOS). Bathymetry compiled from NOS hydrographic surveys supplemented by other hydrographic sources (see index). NOS hydrographic survey data comply with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards or those listed in the title of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator (UTM) Zone 18, 10,000 Meter Tabs (—) are shown inside the mapline.

— Contour of sufficient data on portions of this map require the use of generalized dashed contours.

Offshore promontory survey data, printed in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of Bathymetric Contour Chart (Official Publication Diagram). The promontories on this map are not for Federal Laying purposes; for such purposes refer to the DCS Official Promontory Diagram available from the Bureau of Land Management.

HYDROGRAPHIC SURVEY INFORMATION

Survey Name	Survey Date	Survey Type	Depth (Meters)
11000	1968	1:250,000	10-11
11001	1968	1:250,000	10-11
11002	1968	1:250,000	10-11
11003	1968	1:250,000	10-11

Published at Washington, D.C.
U.S. DEPARTMENT OF COMMERCE

NATIONAL OCEAN SURVEY
1978

BATHYMETRIC CONTOUR INTERVALS: 10 METERS TO 200 METER DEPTH
SUPPLEMENTED BY 2 METER INTERVALS THENCE 10 METERS TO MAXIMUM DEPTH.

DATUM: MEAN LOW WATER

TRANSVERSE MERCATOR PROJECTION
Scale 1:250,000

BLOCK CANYON
NOS NJ 19-1

Photographic scale of the bathymetric contours has been determined by the use of a planimeter, as published in the Director's Office, National Ocean Survey, National Oceanic and Atmospheric Administration, Washington, D.C.
