

BATHYMETRIC MAP

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry compiled from NOS hydrographic survey data (see index) which comply with International Hydrographic Organization (IHO) Standard Specifications for hydrographic surveys or those used at the discretion of the agency. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid Zone S, 12000 Meter Tolls 1-4 are shown inside the map.

Offshore protection survey data, printed in red, compiled by the Minerals Management Service. Heavy lines indicate lines of Maximum Continuous Operation (MCO) for the Outer Continental Shelf (OCS) Oil and Gas Lease System. The parameters on this map are not for Federal leasing purposes; for such purposes refer to the OCS Official Publication Diagram available from the Minerals Management Service.

HYDROGRAPHIC SURVEY INFORMATION
